

Fund-Raising Activity

Instructions: Answer the following questions about the wrapping paper and magazine subscription fund-raisers.

1. How much will the school earn for each \$6 roll of wrapping paper sold?
2. How much will the school earn for selling 20 rolls?
3. How many rolls would the school have to sell to earn \$200?
4. Write an equation that relates the number of rolls sold to the profit for the school on your data sheet under the wrapping paper data table.
5. If you sell, on average, one magazine subscription weekly at the average price of \$20, what would your total revenue be after 4 weeks?
6. How many subscriptions must be sold to earn a profit of \$50? _____, \$100? _____, \$200? _____
7. Write an equation that relates the number of subscriptions sold to the profit for the school on your data sheet under the magazine subscription table.
